

# DOVAC HIGHSPEED LINE

## IT'S ALL ABOUT OPTIMIZING DAY-OLD-CHICK VACCINATION

- Improves vaccination process efficacy
- Enhances operator speed and comfort
- Allows respectful bird handling

CEVA POULTRY SMART SOLUTIONS

# WHY CHICK PROCESSING ORGANISATION CAN EASILY BE IMPROVED?

**+75%**  
of hatcheries  
worldwide are still  
using an inefficient  
system.

*Subcutaneous day-old vaccination process with traditional table vaccination systems represents a bottleneck that disrupts effective hatchery organization.*

## Table vaccination systems are inefficient and risky:

### Low vaccination speed

due to a slow process and to operators' tiredness,

### Low animal welfare

due to several manipulations which increase the stress of the chicks during the process,

### Low operator comfort

due to day-long handling of heavy and bulky crates.

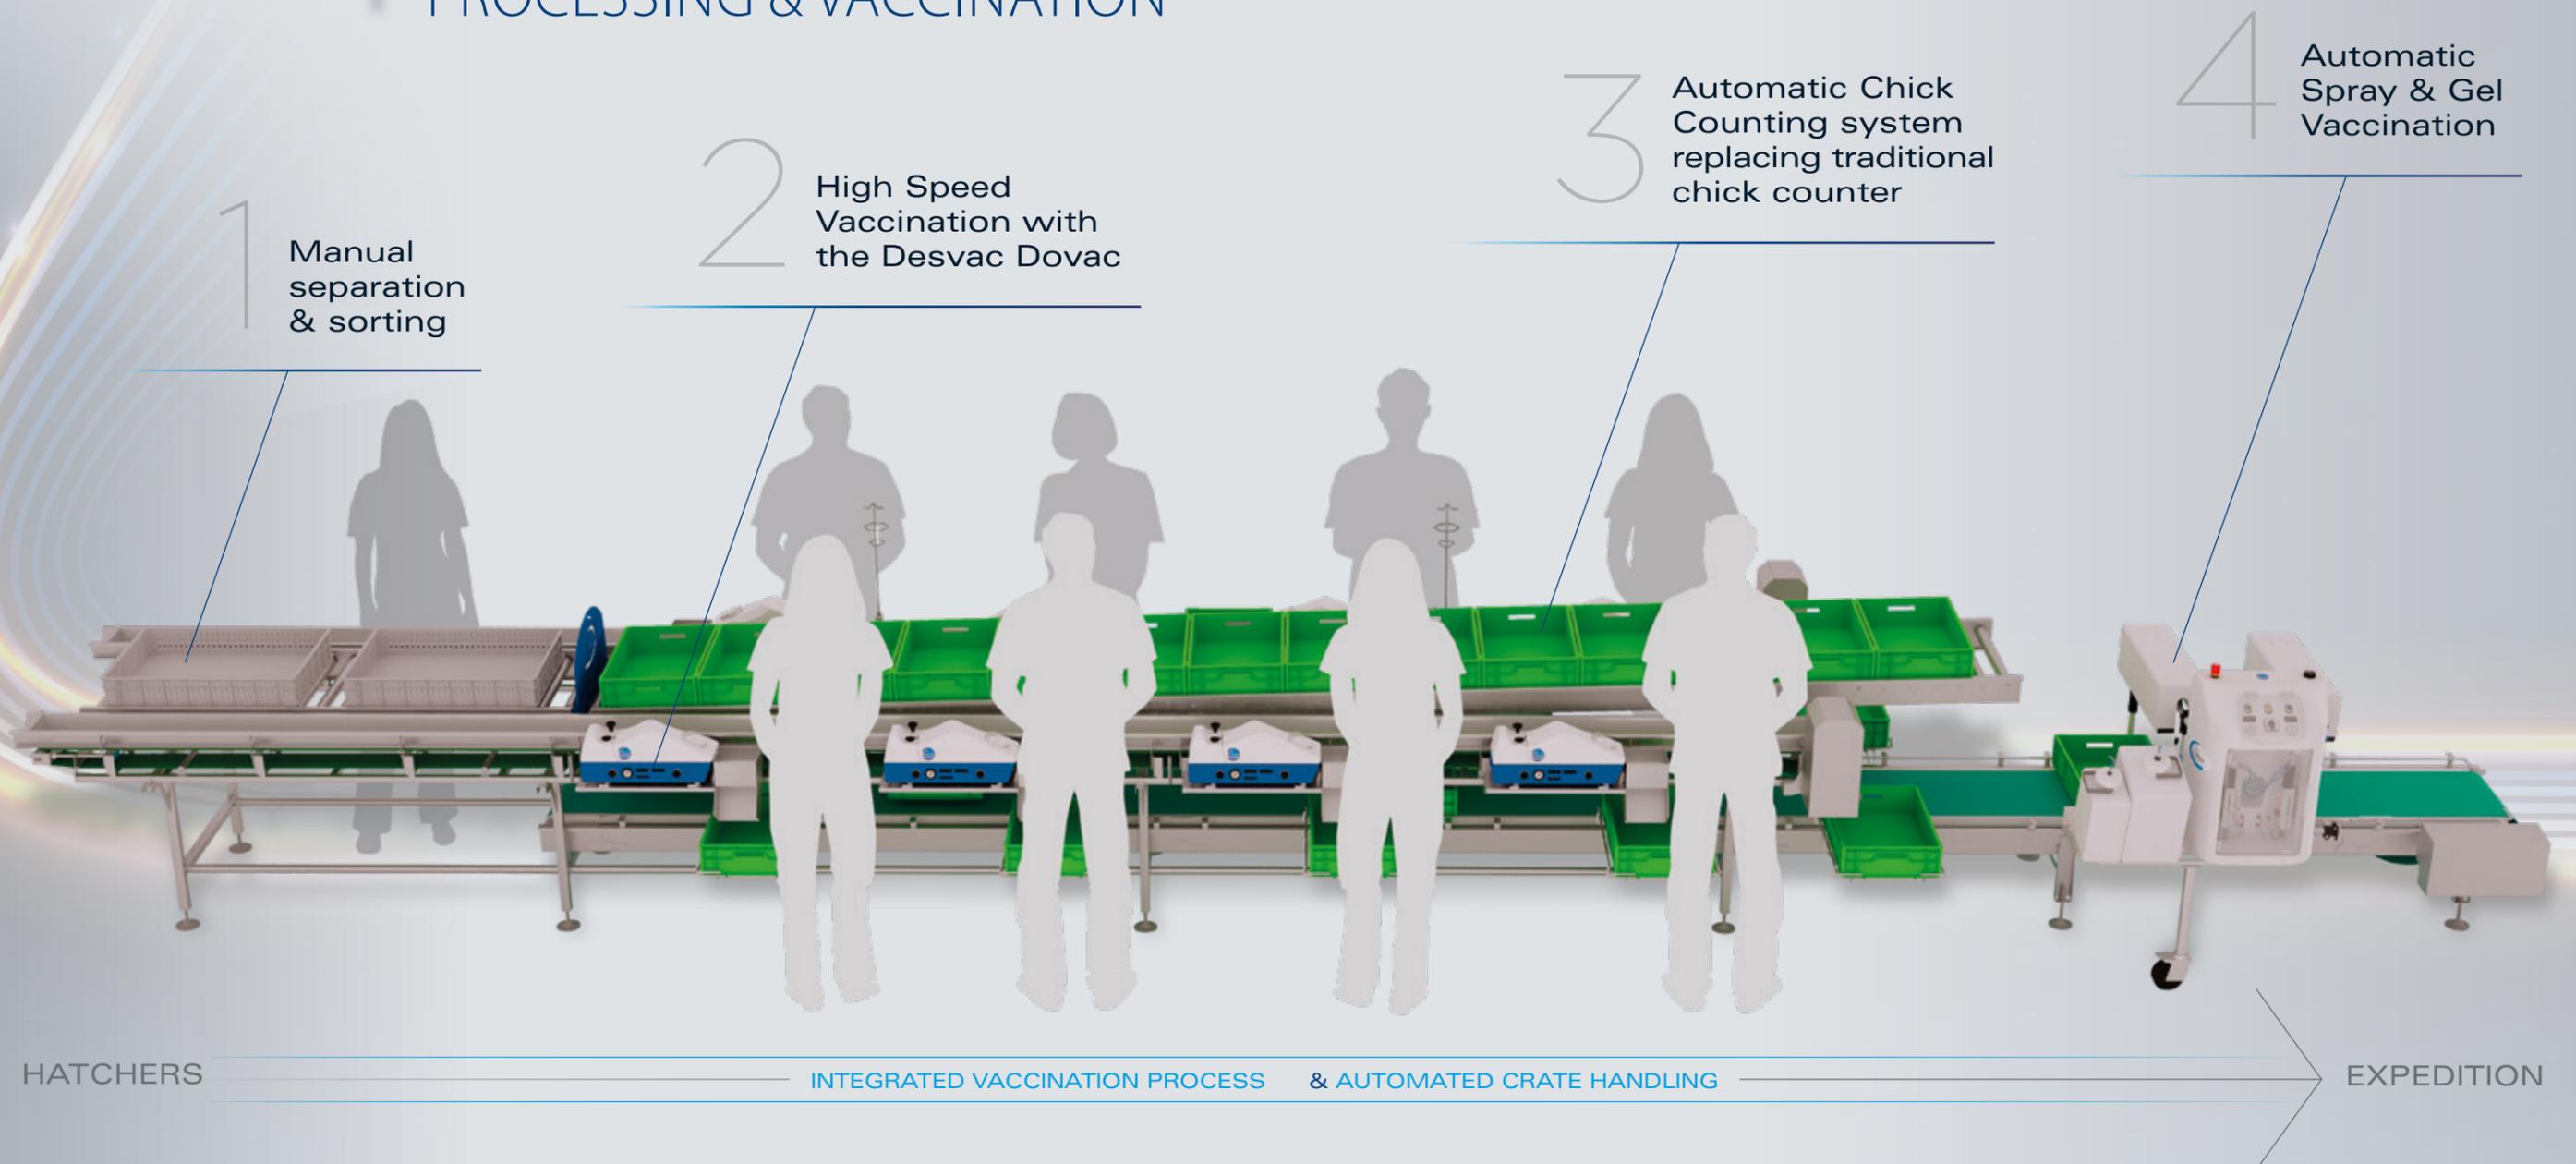

## DOVAC HIGHSPEED LINE improves:

HIGHER  
VACCINATION  
PROCESS  
EFFICACY

OPTIMIZED  
PROCESS  
AND OPERATOR  
COMFORT

RESPECTFUL  
BIRD  
HANDLING

# MODERNIZE YOUR DAY-OLD-CHICK PROCESSING & VACCINATION

4 standards lines versions, adapted to different hatchery requirements:

  
**PROCESS  
OPTIMIZATION**

  
**OPERATOR  
COMFORT**

  
**ANIMAL  
RESPECTFUL  
HANDLING**

VERSION	4 OP	8 OP	12 OP	16 OP
Max Output (DOC/H)	10000 - 12000	20000 - 24000	30000 - 36000	40000 - 48000
Operator qty	7	12	16	22
Dimension (Lxl)	7050 x 2460	10850 x 2460	13250 x 2460	16450 x 2460

# A MAJOR BREAKTHROUGH TO **IMPROVE** HATCHERY PROCESSES:

Increases  
vaccination  
speed by  
up to  
**+25%**

## HIGHER VACCINATION PROCESS EFFICACY

Take advantage of the synergy between vaccination equipment and automation to increase vaccination speed by up to +25%:  
DOVAC HIGH SPEED LINE combines subcutaneous and spray vaccination, in an optimized work flow.

## OPTIMIZED PROCESS & OPERATOR COMFORT

- Optimization of the line reduces by 20% the human resources required.
- Hatch baskets and chick crate handling have been streamlined to simplify the chick room process.

## RESPECTFUL BIRD HANDLING

- The design of the Dovac HIGH SPEED LINE eliminates chick drops, preventing animal injuries and stress.
- The system makes unnecessary any chick counter.

Human  
resources  
reduced  
by up to  
**20%**

No falls,  
no chick  
counter  
required

Minimized  
handling

## SUPPORTED BY CEVA C.H.I.C.K PROGRAM

Regular operator training

Regular vaccination quality audits

Frequent preventative maintenance

Ceva Animal Health makes available the C.H.I.C.K Program Quality Code of Practice to their affiliates for the control of good hatchery vaccination practices in poultry.

CT814 C.H.I.C.K Program  
Quality Code of Practice

CONTROLLED BY BUREAU VERITAS GROUP.

**THE CEVA'S C.H.I.C.K PROGRAM IS A GLOBAL STANDARD OF SERVICE  
FOR HATCHERY VACCINATION MONITORING.**
